PROFESSIONAL PROFILE

Result-oriented Senior IT Executive and Digital Governance Specialist with over 10 years of progressive experience leading public sector digital transformation, critical ICT infrastructure, and technological policy formulation in Nepal. Proven track record in spearheading secure election technology, managing digital voter systems, and executing national e-governance initiatives under the Digital Nepal Framework. Adept at cross-sector stakeholder engagement, inter-agency coordination, and implementing high-integrity ICT systems aligned with international standards. Extensive background in forensic technical investigation, data integrity, and capacity building.

CORE COMPETENCIES

- **Digital Governance & E-Government:** Digital Transformation Strategy, E-Governance Frameworks, Public Sector Modernization
- **Electoral Technology & Integrity:** Secure Voter Registration Systems, Data Privacy, Cyber Resilience, E-Voting Evaluation
- **ICT Policy & Program Management:** Policy Formulation, Inter-Agency Coordination, Multi-Stakeholder Project Execution
- **Technical Leadership & Capacity Building:** Team Management, Technical Training, Academic & Professional Instruction

PROFESSIONAL EXPERIENCE

Election Commission Nepal | Kathmandu, Nepal

IT Director (Senior Technical Lead) | July 2025 – Present

- Direct the strategic design, implementation, and cybersecurity architecture of national ICT systems ensuring secure, transparent, and tech-driven democratic processes.

- Oversee national digital voter registration infrastructure, maintaining data integrity and system availability for millions of citizens.
- Lead national research and policy frameworks exploring remote voter participation and e-voting, assessing risks, usability, and international compliance.
- Coordinate inter-agency technical committees and collaborate with international partners to modernize electoral technological standards.

Commission for Investigation of Abuse of Authority (CIAA) | Kathmandu, Nepal

Electronics Engineer / Digital Forensics Specialist | Nov 2023 – July 2025

- Served as lead technical expert for complex investigations into technology-related corruption, public procurement anomalies, and ICT compliance.

Government of Nepal | Kathmandu, Nepal

Electronics Engineer | Sept 2016 – Nov 2022

- Formulated national ICT policy frameworks aimed at integrating digital learning platforms into the public education system.
- Managed multi-stakeholder consultations to deploy equitable e-learning tools, bridging the digital divide across regional districts.
- Key contributor to the operationalization of the flagship **Digital Nepal Framework**, driving cross-ministerial alignment in e-government solutions.
- Led technical oversight for the national broadcasting digitization initiative, supervising vendor compliance, spectrum management, and infrastructure expansion.

Pulchowk Campus, IOE, Tribhuvan University | Lalitpur, Nepal

Teaching Assistant | Nov 2014 – Aug 2016

- Instructed undergraduate engineering students in electronics, communications, and system architecture.
- Managed technical laboratories, guided student research projects, and supported curriculum upgrades.
